EurusBlower®

ZZ Series

Bi-lobe Positive Displacement Blowers

Eurus Blower: Built for a Long Life

- Drop-in replacement for Roots URAI®, Sutorbilt Legend®, and Tuthill Competitor® models
- Precision machined and balanced, ductile iron, two-lobe rotors
- Ground alloy steel shaft
- Keyless locking assemblies for gear mounting
- Oversized bearings
- Forged alloy steel spur gears
- Oil lubricated gear side, grease lubricated drive side [Optional DSL, dual slash lube]
- Versatile configurations

Over 50 Years Experience

Shandong Zhangqiu Blower Co., Ltd. was founded in 1968 on the principles of providing quality, value and dependability. After 30 years of establishing a solid foundation, they began to export their blowers in the late 1990's. The company quickly became known as a leader in blower technology across international markets.

In 2008, with over 40 years of PD blower manufacturing experience, Shandong Zhangqiu Blower Co., established Eurus Blower in the U.S. with a vision of providing competitively priced, high quality blowers for new or replacement blower applications to North and South American industrial and wastewater treatment marketplaces.

MB (bi-lobe) and ZG (tri-lobe) Series are replacements for DuroFlow® and RAM/RCS® models. Our MB economical blower packages feature high efficiency integrated intake filter/silencer with washable

polyurethane filter media; combination base/ heavy duty integrated discharge silencer for smaller footprint and assembly; V-belt drive and guard with auto tensioning for reduced maintenance costs and vibration dampeners. Options include motor, check valve, relief valve, flexible connectors, sound enclosure, and other accessories.

1. Grease lubricated drive side bearings
2. Oversized bearings (SKF® or FAG® brand)
3. Precision spur gears
4. Viton lip seal
5. Ductile iron rotor
6. Viton lip seal
7. Roller drive bearing (except ZZ2)
8. Aluminum oil cover
9. Cast iron housing
10. Vertical and horizontal mounting configurations

S=Threaded connections standard NPT. F=Flange connections.

Inlet and outlet connections are the same type and size.

Dimensions are in inches. Weights are in pounds.
